## **I. Introduction**

Missourians rely on a vast network of wastewater treatment infrastructure to protect public health and keep their waterways clean and safe. Since the program's inception, the Clean Water State Revolving Fund (CWSRF) has been one of Missouri's primary funding sources for making investments in communities and the future of our state. The CWSRF, managed by the Missouri Department of Natural Resources' Financial Assistance Center (FAC), makes low-interest loans to local communities to help them meet their wastewater needs. The department is committed to protecting Missouri's water resources that are so important to public health and its economy.

This report details the activities undertaken to reach the goals and objectives set forth in the Intended Use Plan (IUP) developed for 2024. It also describes progress made toward long and short term program goals, the sources (e.g. federal grants) and uses (e.g. loans) of all funds, financial status of the CWSRF, and compliance with federal requirements.

## **II. Executive Summary**

This report addresses operation of the CWSRF program during the reporting period from October 1, 2023 through September 30, 2024, Federal Fiscal Year (FFY) 2024.

The State of Missouri's CWSRF program has received a total of \$84,472,000 in Environmental Protection Agency (EPA) capitalization grants during the reporting period, which is available for use beginning October 1, 2023. Missouri made twelve direct loan commitments totaling \$746,436,000 and twenty-six SRF grants totaling \$14,928,822. The state made no leveraged loan commitments.

Since inception, the Water and Wastewater Loan Revolving Fund (Fund 0602) was established to receive loan repayments, which are then used to make new loans. As of September 30, 2024, the Water and Wastewater Loan Revolving Fund had a balance of \$489,576,582. The EPA capitalization grants balance totaled \$13,006,918. Outstanding commitments were \$1,005,182,547. With these taken into consideration, the CWSRF available cash as of September 30, 2024, was negative \$502,599,047. The Program utilizes a cash flow model to project future capitalization grants, future loan principal repayments, to predict when a bond sale will be necessary to meet future commitments. The department intends to conduct a bond sale in FFY 2025 to meet the cash flow needs of the program.

The Missouri CWSRF program received a total of \$1,544,503,631 in EPA capitalization grants and amendments through September 30, 2024. The CWSRF program has contributed state match of \$271,266,365, which includes \$98,136,140 of state appropriations, \$15,427,980 of general obligation state match bonds, \$145,918,462 of state match revenue bonds, and \$11,783,783 of state match administration fees.

The State of Missouri has made 279 leveraged loan commitments totaling \$1,730,092,661; 171 direct loan commitments totaling \$2,697,875,680 (excludes 17 interim direct loans totaling \$118,654,836 that were refinanced as leveraged loans); 151 SRF grants totaling \$83,592,804; 44 American Recovery and Reinvestment Act (ARRA) grants totaling \$56,006,027; and 133 Agriculture loans totaling \$13,330,195 since the inception of the program in 1989.

The CWSRF program has never had a recipient in default on their loan payment. The following table is a summary of CWSRF binding commitments.

<b>Binding Commitment Summary</b>	
Cumulative Binding Commitments	Amount
Leveraged Loans	\$1,730,092,661
Direct Loans (excludes loans paid w/LL)	2,697,875,680
SRF Grants	83,592,804
ARRA Grants	56,006,027
Ag Loans	13,330,195
Cumulative Total	\$4,580,897,367

Exhibit 1 lists all CWSRF capitalization grant awards from program inception through this reporting period. Included in the award amounts are transfers from the Construction Grant Program to the SRF program. The amount of each Construction Grant transfer was in addition to the state's CWSRF allotment. Exhibit 2 lists the schedule of SRF capitalization grant draws and required binding commitments for the Clean Water capitalization grant awards.

### III. 2024 Binding Commitments

The department entered into twelve direct loan commitments totaling \$746,436,000. The department also entered into twenty-six SRF grant commitments totaling \$14,928,822. The following tables list the loan and grant commitments that closed during this reporting period.

<b>Clean Water SRF Direct Loans for FFY 2024</b>			
Recipient	Loan Amount	Closing Date	Project #
Windsor	\$3,200,000	01/25/2024	C295512-01L

## IV. Cumulative Binding Commitments

Exhibit 3 shows a summary of the cumulative leveraged loan commitments, by bond series, since inception of the program and the Metropolitan St. Louis Sewer District (MSD) loan commitments executed as short-term notes. The cumulative leveraged loan binding commitment is \$1,730,092,661.

The cumulative CWSRF binding commitment (leveraged loan, direct loan, and grant commitments) total is \$4,580,897,367. Refer to Exhibit 4 for a complete listing of all binding commitments. Since the inception of the CWSRF program, there are 778 binding commitments. Of the commitments, 279 were leveraged loans, 171 were direct loans, 195 were grants and 133 were sub-recipient loan agreements through the Missouri Agricultural and Small Business Development Authority. In addition, 17 interim direct loans, which are not included in the direct loan binding commitment totals, were repaid and replaced with a leveraged loan. To date, loan recipients have repaid 263 leveraged and direct loans.

The innovative financing provided through the SRF allows communities to save a considerable percentage of the interest cost of conventional loans. To date, Missouri's CWSRF program has saved communities an estimated \$1,724,356,848 in interest compared to the higher interest rates of conventional financing.

Interest savings in this reporting period were approximately 70 percent. The following table is a summary of the interest savings from loans to communities by fiscal year since the inception of the CWSRF program.

<b>Federal Fiscal Year</b>	<b>Interest Savings</b>	<b>Cumulative Interest Savings</b>
1991-2014		\$ 819,937,662
2015	\$43,998,532	\$ 863,936,194
2016	\$ 44,424,567	\$ 908,360,761
2017	\$ 62,635,174	\$ 970,995,935
2018	\$ 3,722,492	\$ 974,718,427
2019	\$ 27,254,836	\$1,001,973,263
2020	\$ 22,951,184	\$1,024,924,447
2021	\$ 62,023,805	\$1,086,948,252
2022	\$ 1,572,726	\$1,088,520,978
2023	\$ 218,945,888	\$1,307,466,866
2024	\$ 416,889,982	\$1,724,356,848

## V. Objectives and Goals of the Clean Water State Revolving Fund

Each year the department evaluates the operations and the financial structures of the SRF program to gauge program effectiveness. This evaluation includes a qualitative assessment of the department's progress toward meeting long-term and short-term goals established in the FFY 2024 IUP.

## **Long Term Objectives and Goals**

To meet the long-term objectives of improving the CWSRF's operations and service to its clients, the department developed the following goals:

1. Provide assistance to water quality improvement actions that help fulfill the objectives of the Clean Water Act.
2. Maintain a self-sustaining revolving CWSRF to provide eligible applicants with affordable financial assistance for clean water infrastructure projects.
  - a. Ensure the use of accounting, audit, and fiscal procedures that conform to generally accepted accounting principles.
  - b. Ensure the financial stability of loan recipients by reviewing the financial history, loan security, and proposed user rates of loan applicants.
3. Provide assistance to projects that increase the long-term sustainability of wastewater treatment systems, and incentivize projects that consolidate, interconnect, or regionalize wastewater treatment.
4. Provide assistance to projects which will help address the issues (e.g. harmful algal blooms) caused by excessive nutrient loading of streams, rivers, and lakes.
5. Provide assistance for projects that will address emerging contaminants, which includes partnering with other programs and organizations to assist in addressing challenges.
6. Provide assistance for technically appropriate and financially sustainable projects, especially for communities considered disadvantaged, facing affordability concerns, or addressing environmental justice.
7. Manage projects and work efficiently with participants to ensure projects proceed toward a binding commitment in a timely manner.
8. Remain flexible in the implementation of BIL funding to address a wide variety of local water quality and public health challenges.
9. Promote nontraditional projects by partnering with other programs and organizations to assist communities in addressing stormwater and nonpoint source challenges.

## **Short Term Objectives and Goals**

To meet the short-term objectives of improving the immediate operations and the availability of service to its clients, the department developed the following goals:

1. Ensure that all grant awards are appropriately expended in an expeditious and timely manner.
2. Update the State Revolving Fund System to ensure effective and efficient project, fund, and program management.
3. Expand and broaden our community outreach activities to ensure political subdivisions of the state are aware of and understand CWSRF assistance options and the loan application process.
4. Partner with a non-profit entity that provides direct technical assistance to publicly owned wastewater treatment works.
5. Manage a program that provides applicants with a streamlined approach to financing clean water infrastructure projects.
6. Continue to look for ways to increase investment in disadvantaged communities through the

state's affordability criteria.

7. Pilot an onsite wastewater treatment system grant program for qualified non-profit corporations to administer.

## **VI. Progress Toward Achieving Objectives and Goals of the Clean Water State Revolving Fund**

This section of the annual report describes the progress that has been made in meeting those long-term and short-term objectives and goals for the period from October 1, 2023, to September 30, 2024.

### **Progress Toward Meeting Long Term Program Objectives and Goals**

The objectives were developed to meet the long term (three to five years) goals of improving the CWSRF's operations and service to its clients:

**Goal 1:** Provide assistance to water quality improvement actions that help fulfill the objectives of the Clean Water Act.

The department continues to meet this objective by providing affordable financing for water quality infrastructure improvements. Department project managers market the program to assist each applicant to navigate the SRF process and reach a binding commitment. During the reporting period, 29 projects entered funding commitments.

**Goal 2:** Maintain a self-sustaining revolving CWSRF to provide eligible applicants with affordable financial assistance for clean water infrastructure projects.

- a. Ensure the use of accounting, audit, and fiscal procedures that conform to generally accepted accounting principles.
- b. Ensure the financial stability of loan recipients by reviewing the financial history, loan security, and proposed user rates of loan applicants.

The CWSRF offers a fixed-rate loan with a subsidized target interest rate of 70 percent below the market rate published the day prior to loan closing. The standard loan term is 20 years, however, terms of up to 30 years are available in special circumstances. The department utilizes a financial analysis process. All applicants are required to provide a completed due diligence questionnaire (DDQ) and financial information spreadsheet that includes information such as three years of financial history, a five-year revenue and expenditure projection, replacement cost consideration and a user rate analysis.

Department project managers and financial staff review all submittals to verify that the applicant has a sound financial capacity and that projected future revenue is sufficient to address operations, maintenance, and debt service.

**Goal 3:** Provide assistance to projects that increase the long-term sustainability of wastewater treatment systems, and incentivize projects that consolidate, interconnect, or regionalize wastewater treatment.

Department staff promote regionalization and consolidation in a variety of ways and offer a Regionalization Incentive Grant for municipalities to connect and accept wastewater from a nearby facility. Staff endorse regionalization and consolidation through publications, webinars, and during individual contacts with facility owners. The department requires that regionalization be one of the alternatives evaluated in SRF funded engineering reports. The CWSRF priority point criteria offer additional points for regionalization projects.

**Goal 4:** Provide assistance to projects which will help address the issues (e.g. harmful algal blooms) caused by excessive nutrient loading of streams, rivers, and lakes.

CWSRF applicants receive additional points for projects that include nutrient reduction in watersheds with a lake or reservoir where numeric nutrient criteria or nutrient effluent limits are applicable.

**Goal 5:** Provide assistance for projects that will address emerging contaminants, which includes partnering with other programs and organizations to assist in addressing challenges.

The FAC has participated in discussions with the Water Protection Program to adopt drinking water standards and water quality criteria that will be implemented through permitting actions. Furthermore, FAC is working to award the first emerging contaminants grant in FFY 2025 and is currently processing other applications.

**Goal 6:** Provide assistance for technically appropriate and financially sustainable projects, especially for communities considered disadvantaged, facing affordability concerns, or addressing environmental justice.

The department was able to award 78% of the total additional subsidization to communities with affordability challenges in FFY 2024. Also, of the engineering report grants awarded in the same timeframe, 42% were awarded to communities deemed disadvantaged. The department continues to offer affordability grants as the highest priority to applicants to ensure future sustainability of those communities.

**Goal 7:** Manage projects and work efficiently with participants to ensure projects proceed toward a binding commitment in a timely manner.

The department continuously works to improve our processes for applicants. Some improvements include updates to forms and their availability on our website. Project managers work closely with applicants to assist them through the process and help the project progress to the binding commitment.

**Goal 8:** Remain flexible in the implementation of BIL funding to address a wide variety of local water quality and public health challenges.

The department combined the BIL capitalization grant funding with the base funding into one IUP and Project Priority List, which allows the department flexibility in

administering the program. The department will craft single loan and grant assistance agreements to contain the multiple types of components funded by multiple pots of funds.

**Goal 9:** Promote nontraditional projects by partnering with other programs and organizations to assist communities in addressing stormwater and nonpoint source challenges.

The FAC coordinates with Section 319 Nonpoint Source Grant and Section 604(b) Water Quality Management Planning Grant programs and assists with their proposal reviews and providing input into the program framework and educates project managers and applicants.

### **Progress Toward Meeting Short Term Program Objectives and Goals**

The objectives were developed to meet the short term (one to three years) goals of improving the CWSRF's immediate operations and the availability of service to its clients:

**Goal 1:** Ensure that all grant awards are appropriately expended in an expeditious and timely manner.

The BIL implementation memo encouraged states to make commitments, such as enter into loans and grants and disburse the funding, within one year after receipt of each capitalization grant from EPA. The department commits to disbursing capitalization grant funding within one year of receipt, so long as there are sufficient CWSRF binding commitments. The department also applied for conditional capitalization grants, prior to receiving project applications. This allows the department to commit the funding at a faster pace once an application is received, because the department received the award in advance.

**Goal 2:** Update the State Revolving Fund System to ensure effective and efficient project, fund, and program management.

The department is researching and working to procure and implement a new system for the SRF to increase efficiency in program implementation before the end of FFY 2025.

**Goal 3:** Expand and broaden our community outreach activities to ensure political subdivisions of the state are aware of and understand CWSRF assistance options and the loan application process.

The FAC continues to attend marketing events around the state. Staff are also taking opportunities to present at webinars and trainings to provide outreach.

**Goal 4:** Partner with a non-profit entity that provides direct technical assistance to publicly owned wastewater treatment works.

The department awarded the Missouri Rural Water Association (MRWA) with CWSRF grant funds to provide technical assistance to publicly owned treatment works in FFY

2022. The department receives quarterly reports from MRWA regarding contacts made and community assistance provided on various financial, technical, and managerial needs across the state. This has resulted in applications to the CWSRF engineering report grant program. MRWA has assisted 70 publicly owned treatment works in FFY 2024 and has also provided training opportunities on topics such as project management, system mapping, and best practices for billing.

**Goal 5:** Manage a program that provides applicants with a streamlined approach to financing clean water infrastructure projects.

The department has streamlined financing projects by incorporating a financial history review and a user rate analysis into one document for a consolidated review.

**Goal 6:** Continue to look for ways to increase investment in disadvantaged communities through the state's affordability criteria.

To ensure that disadvantaged communities benefit equitably from the historic BIL investment in water infrastructure, the department continues to expand applicability of the affordability grant. The affordability grant guidance was updated to reach portions of larger communities and districts with affordability challenges by utilizing data based on one or multiple census tracts.

**Goal 7:** Pilot an onsite wastewater treatment system grant program for qualified non-profit corporations to administer.

CWSRF grant funds were award to H2Ozarks in FFY 2023 to provide assistance to homeowners for onsite wastewater treatment systems. The department coordinates with H2Ozarks on a quarterly basis. In FFY 2024, 8 repairs or replacements were completed, with more expected in the next reporting period.

## **VII. Details of Activities**

### **Fund Financial Status**

#### **1. Binding Commitments for the 2024 Reporting Period**

Refer to Section III of this report for information regarding this reporting period's binding commitments. Information regarding cumulative binding commitments is located in Section IV of this report.

Exhibit 2 lists the state's obligation to make binding commitments in an amount equal to 120 percent of each quarterly capitalization grant payment and Exhibit 4 is a complete binding commitment list.

The following table lists seven projects, which were initiated during this reporting period.

FFY 2024 Project Construction Start Dates			
Recipient	Project #	Construction Start Date	Loan & Grant Amount
LaGrange	C295082-01	10/23/2023	\$ 474,766
Windsor	C295512-01	03/01/2024	\$ 5,445,649
Higginsville	C295878-01	04/02/2024	\$ 20,150,000
Jefferson City	C295876-01	05/27/2024	\$ 14,132,000
Rosebud	C295083-01	07/29/2024	\$ 3,068,984
Republic	C295903-05	07/01/2024	\$ 50,000,000
Mayview	C295849-01	09/23/2024	\$ 3,495,149

## 2. Source of Funds

Since inception of the program through this reporting period, Missouri has received a total of \$1,544,503,631 in federal CWSRF capitalization grants. Included are transfers from the EPA Construction Grants Program in the amount of \$8,938,132. Refer to Exhibit 1 for a list of the federal grant awards and transfers.

During SFY 2005, Missouri began generating state match from the proceeds of Environmental Improvement and Energy Resources Authority (EIARA) state match bond sales. Bonds are clearly identified as either project bonds or state match bonds.

In addition to the EPA capitalization grant and the state match, Missouri uses its repayment account (Fund 0602) to finance projects. Debt service repayments received during the reporting period totaled \$30,968,001 from reserve loans, \$55,436,471 from master trust transfers, and \$1,830,812 from direct loans.

## 3. Disbursements

Each individual loan has its own loan account at the master trustee bank. Disbursements from these accounts for direct loan program participants totaled \$281,051,424 for the reporting period. Disbursements to grant recipients were made directly from the department to each participant rather than going through the master trustee bank.

Disbursements through the master trustee bank to the direct loan participants from the Water and Wastewater Loan Fund (Fund 0649) totaled \$94,178,446, all of which came from federal capitalization grants. Disbursements through the master trustee bank to the direct loan participants from the Water and Wastewater Loan Revolving Fund (Fund 0602) totaled \$186,872,978. Disbursements from Fund 0602 and Fund 0649 for grants totaled \$10,529,314.

## 4. Revenue and Expenses

Fund revenues consisting of interest earnings on loans, investment interest, EPA grant draws, state match contribution and administration fees totaled \$40,221,736.

Fund expenses, including administrative expenditures, transfer of state match contribution and bond interest expense, totaled \$12,302,486.

The program reports an increase in net position of \$117,750,325. This amount includes EPA grant revenue of \$100,801,039. Other program activity resulted in an increase in net assets of \$16,949,286.

#### 5. Cash Draw Ratio (Proportionality)

Missouri used a cash flow model for the CWSRF program during this reporting period. The federal capitalization grant was not used as security for the state match bonds. During the reporting period, state match funds were drawn prior to using any federal funds from the FFY 2023 capitalization grants. Once state match funds were utilized, the cash draws were 100 percent federal funds.

#### 6. Financial Statements

The financial statements account for all CWSRF funds. The SRF accounts are the Water and Wastewater Loan Fund (Fund 0649), the Water and Wastewater Loan Revolving Fund (Fund 0602), the Administration Fee Fund (Fund 0568), and the accounts held at various trustee banks. The statements include notes essential to the presentation.

#### 7. Green Project Reserve (GPR)

Staff continue to discuss the GPR requirements with SRF applicants and consulting engineers to encourage the utilization of GPR components in proposed projects. The costs associated with GPR components are being applied to the oldest capitalization grant first until such time as the GPR requirement for that grant has been satisfied.

<b>Federal Fiscal Year</b>	<b>GPR Allocation</b>	<b>GPR Awarded</b>
2010	\$11,296,600	\$11,296,600
2011	\$ 8,187,200	\$ 8,187,200
2012	\$ 3,917,900	\$ 3,917,900
2013	\$ 3,700,900	\$ 3,700,900

2023 – Base	4,159,000	8,318,000	8,318,000	-
2022 - GS	24,176,110	24,176,110	24,176,110	-
2023 – GS	28,313,670	28,313,670	28,313,670	-
2022 - EC	2,592,000	2,592,000	2,592,000	-
2023 - EC	5,894,000	5,894,000	5,894,000	-
<b>Total</b>	<b>\$115,908,973</b>	<b>\$245,332,566</b>	<b>\$168,946,997</b>	<b>\$81,566,286</b>

The department has entered into binding agreements for additional subsidization in amounts that exceed the minimum requirements of the FFY 2010 to 2022 base capitalization grants. Exhibit 5 lists the recipients awarded additional subsidization as of September 30, 2024. All additional subsidization was provided in the form of grants.

Under the FFY 2024 CWSRF capitalization grants, the department elected to reserve up to \$9,052,400 from the base grant, \$30,891,070 from the general supplemental grant and \$5,894,000 from the emerging contaminants grant to offer as additional subsidization. The FFY 2024 CWSRF capitalization grants were not yet awarded at the time of this report but are anticipated to be awarded in FFY 2025 and will be reported at that time, as necessary.

#### 9. Federal Funding Accountability and Transparency Act (FFATA) and Equivalency

The following table lists the grant awards reported in the FFATA Subaward Reporting System as of September 30, 2024. These awards have been designated as fulfilling FFATA and equivalency requirements.

FFATA Subaward List				
Clean Water CAP Grant Year	CAP Grant Amount	Project Number	Recipient	FFATA Subaward Obligation
FFY2010		C295548-02	Joplin	\$ 18,633,000
FFY2010		C295525-01	Little Blue Valley Sewer District	37,850,000
	\$ 56,483,000			\$ 56,483,000
FFY2011		C295531-01	Cape Girardeau	\$ 31,000,000
FFY2011		C295684-01	Northeast Public Sewer District	12,000,000
	\$ 40,836,000			\$ 43,000,000
FFY2012		C295401-06	Jefferson City	\$ 15,000,000
FFY2012		C295699-02	St. Joseph	14,660,000

FFY2014		C295699-01	St. Joseph	28,585,000
FFY2014		C295375-10	Boone County R.S.D.	3,064,000
FFY2014		C295721-01	Windsor Place	1,546,758
	\$ 38,868,000			\$ 39,277,758
FFY2015	\$ 38,669,000	C295023-37L	MSD	\$ 38,669,000
FFY2016	\$ 37,039,000	C295023-39	MSD	\$ 37,039,000
FFY2017	\$ 36,754,000	C295023-39	MSD	\$ 36,754,000
FFY2018		C295023-37L	MSD	\$ 21,312,000
FFY2018		C295023-38	MSD	20,000,000
FFY2018		C295023-39	MSD	1,707,000
FFY2018		C295825-01	MSD	1,476,000
	\$ 44,495,000			\$ 44,495,000
FFY2019		C295833-01	MSD	\$ 256,000
FFY2019		C295825-01	MSD	23,791,000
FFY2019		C295671-01	Poplar Bluff	20,000,000
	\$ 44,047,000			\$ 44,047,000
FFY2020		C295833-01	MSD	\$ 23,696,000
FFY2020		C295072-01	MSD	20,357,000
	\$ 44,053,000			\$ 44,053,000
FFY2021		C295072-01	MSD	\$ 42,744,000
FFY2021		C295023-41	MSD	1,303,000
	\$ 44,047,000			\$ 44,047,000
FFY2022 - Base		C295878-01	Higginsville	\$ 20,150,000
	\$ 32,076,000			\$ 20,150,000
<b>Total FFATA Reported to Date</b>				<b>\$ 544,693,758</b>

No projects have been applied toward the FFY 2022 General Supplemental and Emerging Contaminants FFATA or any FFY 2023 FFATA requirements during this reporting period. Projects have been selected and are proceeding toward loan closing and are anticipated to be completed and recorded during the FFY 2025 reporting period.

## 10. Subaward Reporting

The department did not award any CWSRF grants or loans that qualify for reporting under 2 CFR 200.331(d) during this reporting period.

### Operating Agreement Conditions

All current conditions and assurances agreed to in the department and EPA's operating agreement are as stipulated in the previous year's annual report.

### Compliance with Grant Conditions

The department continues to comply with all grant conditions. The following sections address specific compliance issues:

- **Lobbying:** Lobbying by grant recipients is restricted by Section 607(A) of P.L. 96-74 and the Anti-Lobbying Act, Section 319 of P.L. 101-121. The Department has not engaged in illegal lobbying and has not used grant funds to support lobbying.
- **Debarment:** The department complies with the EPA's policy on debarment and suspension under assistance, loan and benefit programs. The department has not solicited sub agreements from debarred or suspended parties and has included notice of this policy in solicitations as required.
- **Disadvantaged Business Enterprises (DBE):** The Department complies with EPA's Guidance for Utilization of Small, Minority and Women's Business Enterprises. It has agreed to negotiate fair share goals. During the reporting period, the department and all loan and grant recipients have complied with the requirements contained in 40 CFR, Part 33. The department has submitted reports on disadvantaged business enterprise use as required based on the information received from loan and grant recipients. DBE reports were submitted to the EPA for the 2024 reporting period. The table below summarizes the DBE activity for Missouri's CWSRF program for the reporting period.

Assistance Activity 2024 Reporting Period			
	MBE/WBE	Procurement	Percent
Construction	\$600,136	\$6,158,057	9.7%
Non-Construction	3,932	55,491	7.1%
Total	\$604,068	\$6,213,548	
			Goal 10.0%

- **Reporting:** The department submits an annual report on the state of the CWSRF and environmental benefits. This report fulfills the requirement of the annual report. The department has entered the environmental benefits for each loan recipient into the Office of Water State Revolving Funds (OWSRF) System.
- **Use of recycled paper:** The department submits required reports to the EPA on recycled paper. This report is printed on recycled paper.

- Indirect costs: The department complies with the negotiated indirect cost agreement and charges indirect costs in the year expended.

## **VIII. EPA Recommendations on Performance Evaluation Report/Annual Program Review**

Staff from EPA Region VII conducted a program evaluation of the FFY 2023 CWSRF program June 25 through 27, 2024. The final program evaluation report included the following recommendations and observations:

1. EPA compliments Missouri for submitting the FFY 2023 Annual Report, audited financial statements and the IUP in a timely manner.
2. The Financial Indicator for the Ratio of Undisbursed Project Funds to Disbursements (Revolving Rate), is just over 6 years. This rate has moved upward and will be monitored in future annual reviews to ensure MoDNR is following the timely and expeditious use of funds memo as outlined by the EPA.
3. CWSRF cash flow projections and project estimates are at a point where the Program is strongly considering leveraging for projects in the upcoming year due to demand. Region 7 staff requested MoDNR to inform them when the decision to leverage is confirmed to discuss (in real time) the factors that came together prompting this action.
4. CWSRF project files contained all required documentation. No improper payments were discovered during the transaction testing review.
5. One negative draw was noted and investigated during the year in review. The negative draw was reviewed by EPA Headquarters and was not considered an improper payment. It was considered a book entry adjustment.

## **IX. Proposed Improvements**

The department's FAC engages in continual marketing efforts intended to communicate the benefits of the CWSRF program. The department also continues to evaluate the program's administrative procedures to streamline processes and improve customer service.

## **X. Programs Outside the State Revolving Fund**

### **Rural Sewer Grants**

The Rural Sewer Grant program was established by Missouri voters in 1998 with passage of Article III, Sections 37(g) of the Missouri Constitution. The department currently funds Rural Sewer Grants with CWSRF administration fees. Eligible project types include providing centralized sewers to unsewered areas or upgrading facilities to meet more stringent requirements for wastewater treatment. During this reporting period, the department had limited funds available and therefore, did not award any new Rural Sewer Grants.

Cumulatively, the department has awarded 30 Rural Sewer Grants totaling \$9,908,023, funded from Administration Fee Fund 0568. Cumulative disbursements totaled \$9,729,127. Disbursements for this reporting period total \$25,000.

### **State Direct Loans**

Eligible applicants are small communities that are currently experiencing financial difficulties or that have a small financial need. These applicants would not typically qualify for assistance through the Clean Water or Drinking Water SRF programs. Direct loans available to communities consist of small borrower loans and direct loans. Small borrower loans are limited to \$100,000 and are for drinking water and wastewater projects for communities of less than 1,000 in population. State direct loans may also be funded with repayments of prior direct loan proceeds. During the reporting period, the department entered into zero state direct loans. There were no disbursements for this reporting period.

### **Stormwater Grants and Loans**

The Storm Water Grant and Loan program was established by Missouri voters in 1998 with passage of Article III, Section 37(h) of the Missouri Constitution. The Constitution authorizes the Board of Fund Commissioners to issue stormwater bonds with approval from the General Assembly. Between SFY's 2000 and 2002, \$45,000,000 in stormwater bond proceeds were generated through bond sales authorized by the General Assembly through budget legislation. Proceeds from the last stormwater bond sale were fully expended through grants and loans in 2007. Since that time, the fund has been growing with loan repayments and interest from the loans made with bond proceeds. During this reporting period, the department did not award any Stormwater Grants or Loans, funded from Stormwater Loan Revolving Fund 0754. Since 2007, the department has awarded 14 Stormwater Grants totaling \$5,794,379. Disbursements for this reporting period total \$226,406.

### Clean Water SRF Capitalization Grant Awards

FFY	Grant ID	Transfers	Allotment (less 604b)	Award Amount	Cumulative

## **Management's Discussion and Analysis**

The following is the discussion and analysis of the financial activities for the Missouri Department of Natural Resources' Clean Water State Revolving Fund(CWSRF) Program for the year ended September 30, 2024. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the Notes to the Financial Statements.

### **Financial Highlights**

The assets and deferred outflows of resources of the program exceeded liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$1,802,138,004 (net position). Net position consists of federal capitalization grant contributions of \$1,531,084,713, state match contributions of \$112,064,216, and net income of \$158,989,075 since the inception of the program. The net position of the program is all restricted. The program's enabling legislation and related regulations require that all money in the fund may be used only for purposes of the program.

Total assets increased by \$66,614,217 from \$1,883,732,102 on September 30, 2023, to \$1,950,346,319, on September 30, 2024. The enterprise funds' assets increased \$66,633,273 and the custodial fund assets decreased \$19,056. Explanations for these changes are detailed in the Financial Analysis section.

Total liabilities decreased \$53,371,765. Most of the decrease was from a reduction in bonds payable. Bonds payable decreased \$52,533,564 because the program has changed from primarily a leveraged loan program to a direct loan program.

During this reporting period, the program's total net position increased \$117,750,325. Of this amount, \$100,801,039 is capital contributions from the Environmental Protection Agency, \$1,384,619 is a prior period adjustment to increase the pension and OPEB liability and \$9,345,544 is the current period's operating income.

### **Overview of the Financial Statements**

The discussion and analysis are intended to serve as an introduction to the department's CWSRF program's basic financial statements. The program's basic financial statements are comprised of two components: 1) proprietary and fiduciary fund financial statements; and 2) notes to the financial statements.

The proprietary and fiduciary fund financial statements include a statement of net position; a statement of revenues, expenses and changes in net position; a statement of cash flows; a statement of fiduciary net position; and a statement of changes in fiduciary net position.

- The statement of net position presents the assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position of the program. Assets consist of cash and cash

equivalents, administration fees receivable, federal capitalization grant funds receivable, interest receivable from loans and investments, and loans receivable. Deferred outflows of resources consist of the deferred charge on refunding and the deferred outflows for pension and other post-employment benefits (OPEB). Liabilities include accounts payable, bonds payable, net pension, net OPEB, and bond interest payable. Deferred inflows of resources consist of the deferred inflows for pension and OPEB. Net position includes the federal capitalization grant contributions, the state match contributions, and the excess earnings of the program's operations since inception.

- The statement of revenues, expenses and changes in net position presents information showing how the program's net position changed during the reporting period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.
- The statement of cash flows is provided to identify the sources and the uses of cash during the reporting period and to demonstrate that the program has sufficient cash to meet its obligations.
- The statement of fiduciary net position and a statement of changes in fiduciary net position provide information about the program's custodial fund. The custodial fund consists of the assets and liabilities related to the loan funds that are held at trustee banks on behalf of the loan participants.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the fund financial statements.

## Financial Analysis

1. The following section displays the current and prior year financial statements of the loan fund and describes some of the major reasons for the changes.

### Loan Fund Net Position

	2024	2023	Percent Change
Current assets	\$681,179,493	\$ 766,646,664	-11%
Non-current assets	1,237,010,805	1,086,646,736	14%
Total assets	1,918,190,298	1,853,293,400	4%
Deferred outflows	2,543,285	3,257,607	-22%
Total assets and deferred outflows	1,920,733,583	1,856,551,007	3%
Current liabilities	48,362,052	60,364,126	-20%
Non-current liabilities	97,657,055	137,856,977	-29%
Total liabilities	146,019,107	198,221,103	-26%
Deferred inflows	4,360	12,507	-65%
Total liabilities and deferred inflows	146,023,467	198,233,610	-26%
Net position	\$1,774,710,116	\$ 1,658,317,397	7%

The loan fund net position increased \$116,392,719 from the previous year. The major reasons for the increase:

- Loans receivable increased by \$144,689,058.
- Cash and cash equivalents decreased by \$79,403,376.
- Deferred charge on refunding decreased by \$910,806.
- Bond interest payable decreased by \$223,755.
- Bonds payable decreased by \$52,533,564.

### Changes in Loan Fund Net Position

	2024	2023	Percent Change
Operating revenues	\$22,129,478	\$ 21,387,584	3%
Operating expenses	13,200,500	7,945,707	66%
Operating income	8,928,978	13,441,877	-34%
Non-operating revenues (expenses)	107,463,658	62,133,003	73%
Income before transfers	116,392,636	75,574,880	54%
Transfers in	-	-	0%
Changes in net position	116,392,636	75,574,880	54%
Net position, beginning of year	1,658,317,397	1,582,742,601	5%
Prior period adjustment	83	(84)	-199%
Net position, end of year	\$1,774,710,116	\$ 1,658,317,397	7%

Operating expenses of the loan fund increased 66 percent. An increase in disbursements to grant recipients was the contributing factor for the increase in the amount of \$5,220,063.

### Loan Fund Cash Flows

	2024	2023	Percent Change
Cash flows from operating activities	\$(135,488,623)	\$ 58,171,098	-333%
Cash flows from non-capital financing activities	43,767,659	(8,063,075)	-643%
Cash flows from investing activities	12,317,589	10,377,489	19%
Increase in cash and cash equivalents	(79,403,375)	60,485,512	-231%
Cash and cash equivalents, beginning of year	624,522,612	564,037,100	11%
Cash and cash equivalents, end of year	\$545,119,237	\$ 624,522,612	-13%

Several factors caused a change in the loan fund cash flow amounts between the 2023 and the 2024 reporting period. The main contributing factors are detailed below:

- Grant disbursements increased \$5,520,978.
- Loan disbursements increased \$187,751,177.
- Repayments received on loans decreased \$77,501.
- Bond principal retired increased \$2,990,700.
- Other payments increased \$1,135,977.

2. The following section displays the current and prior year financial statements of the administration fee fund and describes some of the major reasons for the changes.

#### Administration Fee Fund Net Position

	2024	2023	Percent Change
Current assets	\$30,399,489	\$ 28,660,606	6%
Capital assets	-	2,508	-100%
Total assets	30,399,489	28,663,114	6%
Deferred outflows	678,941	835,618	-19%
Total assets and deferred outflows	31,078,430	29,498,732	5%
Current liabilities	328,675	25,644	1182%
Non-current liabilities	3,315,535	4,769,279	-30%
Total liabilities	3,644,210	4,794,923	-24%
Deferred inflows	6,332	18,146	-65%
Total liabilities and deferred inflows	3,650,542	4,813,069	-24%
Net position	\$27,427,888	\$ 24,685,663	11%

Net position of the administration fee fund increased \$2,742,225. The net position change reflects an overall cash balance increase resulting from fund income exceeding expenditures.

#### Changes in Administration Fee Fund Net Position

	2024	2023	Percent Change
Operating revenues	\$5,002,806	\$ 5,191,351	-4%
Operating expenses	4,586,240	3,068,901	49%
Operating income	416,566	2,122,450	-80%
Non-operating revenues (expenses)	941,123	712,753	32%
Income before transfers	1,357,689	2,835,203	-52%
Transfers out	-	-	0%
Changes in net position	1,357,689	2,835,203	-52%
Net position, beginning of year	24,685,663	22,483,901	10%
Prior period adjustment	1,384,536	(633,441)	-100%
Net position, end of year	\$27,427,888	\$ 24,685,663	11%

Operating expenses increased \$1,517,339, and operating revenues decreased \$188,545. Operating expenses increased primarily due to an increase in administrative expenses.

### Administration Fee Fund Cash Flows

	2024	2023	Percent Change
Cash flows from operating activities	\$849,063	\$ 2,073,210	-59%
Cash flows from non-capital financing activities	-	-	0%
Cash flows from capital and related financing activities	-	(673)	-100%
Cash flows from investing activities	930,407	614,807	51%
Increase (Decrease) in cash and cash equivalents	1,779,470	2,687,344	-34%
Cash and cash equivalents, beginning of year	26,981,611	24,294,267	11%
Cash and cash equivalents, end of year	\$28,761,081	\$ 26,981,611	7%

Grant disbursements decreased by \$109,921, administration fees received decreased by \$242,869, payments to employees increased by \$1,339,555, other administrative payments decreased by \$252,697 in this reporting period. The administration fee fund did not provide the state match for 2024. Overall, administration fees received were more than expenses resulting in cash and cash equivalents increasing by \$1,779,470 in this reporting period.

3. The following section displays the current and prior year assets and liabilities of the custodial fund.

### Custodial Fund Net Position

	2024	2023	Percent Change
Assets	\$1,756,532	\$ 1,775,588	-1%
Liabilities	1,756,532	1,775,588	-1%
Net Position	\$ -	\$ -	0%

The custodial fund assets and liabilities decreased 1 percent.

### Changes in Custodial Fund Net Position

	2024	2023	Percent Change
Additions	\$275,781,548	\$ 87,865,383	214%
Deductions	275,781,548	87,865,383	214%
Net Position	\$ -	\$ -	0%

The custodial fund additions and deductions increased 214 percent because of increased loan and grant payments to communities.

**Notes to the Financial Statements**

**Note 1: Summary of Significant Accounting Policies**

**Reporting Entity**

The department's CWSRF program was established pursuant to Title VI of the Federal Water Quality Act of 1987. The act established the CWSRF program to replace the construction grants program to provide loans at reduced interest rates to finance the construction of publicly-owned water pollution control facilities, nonpoint source pollution control projects, and estuary management plans. The CWSRF program provides low-interest rate loans and grants to finance the eligible costs of qualified projects. The CWSRF program provides a flexible financing source that can be used for a variety of pollution control projects, including nonpoint source pollution control projects, and developing estuary conservation and management plans. Loans typically are repaid within 20 years, and all repayments, including interest and principal, must remain in the SRF loan fund, except for qualifying expenses. Loan terms can also be extended to 30 years, not to exceed the useful life of the project if the applicant is experiencing a significant financing challenge.

The CWSRF program was capitalized by the U.S. Environmental Protection Agency (EPA) through a series of grants starting in 1988. For most of the grants, states are required to provide an additional 20 percent of the federal capitalization grant as matching funds in order to receive the grant. As of September 30, 2024, Congress had authorized the EPA to award \$1,544,503,631 in capitalization grants to the State of Missouri. The state is required to contribute \$271,266,365 in matching funds.

The program is administered by the department, the Missouri Environmental Improvement and Energy Resources Authority (EIERA), and the Missouri Clean Water Commission. The EIERA issues bonds or notes to finance state match and qualified projects, and the department receives the capitalization grants from the EPA. The program is comprised of three funds within the state and a custodial fund that holds the construction loan funds. The state funds are:

- Water and Wastewater Loan Fund (Fund 0649) – receives the federal capitalization grant funds and uses those funds to make grants and loans and to pay the program's administrative expenses;
- Water and Wastewater Loan Revolving Fund (Fund 0602) – receives loan repayments and uses those funds to make new loans;
- Water Pollution Permit Fee Fund (Fund 0568) – receives the loan fees charged to borrowers and pays some administrative expenses of the program and other eligible expenses for water quality purposes. This fund is also referred to as the administration fee fund.

The custodial fund accounts for the monies held at trustee banks on behalf of the loan participants. This includes the funds generated by the sale of bonds that are deposited with a trustee bank in the applicant's name and are used for SRF eligible activities, their unspent loan funds, debt service reserve funds, as well as the rebate funds held for arbitrage payments. The State of Missouri's statewide Annual Comprehensive Financial Report includes the CWSRF program as a special revenue fund, which uses the modified accrual basis of accounting. Due to

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Continued**

differences in reporting methods, there may be differences between the amounts reported in these financial statements and the Annual Comprehensive Financial Report. The major differences between the amounts reported in these financial statements and the Annual Comprehensive Financial Report is that the custodial fund is not included in the Annual Comprehensive Financial Report but is shown in these financial statements and the difference in reporting period.

**Program Operations**

The program provides financing to participants using three main types of funding: leveraged and reserve loans, direct loans, and grants.

**A. Leveraged and Reserve Loans**

Prior to State Fiscal Year (SFY) 2010, the program's main type of financing was leveraged and reserve loans. Missouri leveraged federal and state matching funds by issuing revenue bonds to make loans to qualified communities and by using federal grant and state matching funds to create reserves for the loans. Interest earned on the reserves subsidizes loan interest rates and enhances the security of the loans, which are pledged to repay bond principal and interest. Borrowers, in essence, received two loans from the CWSRF program: 1) a market-rate loan funded by the revenue bond proceeds that equaled project construction costs; and 2) a zero-rate loan funded by capitalization grants and state matching funds that equaled 70 percent of the project loan. Bond proceeds were deposited to the construction loan funds held by the trustee bank. As communities drew on these funds to pay construction costs, the reserve accounts were funded. For loans closed in SFY 2009, the reserve accounts were funded at closing rather than as construction funds were released. Earnings in the reserve account reduced the borrower's net interest payments on the bonds, resulting in the subsidized, blended interest rate on the project loan.

Beginning with bond series 2004C, a portion of the revenue bonds were sold to fund the leveraged loans, and the remaining were state match bonds that will be repaid with interest earnings on the loans. The state match bond proceeds were used to fund a portion of the construction loan account, while the reserve account was funded with federal grant and recycled funds.

**B. Direct Loans**

Direct loans that were closed prior to SFY 2010 were funded up front from recycled funds. Loan proceeds were deposited to the construction loan accounts held by the trustee bank. As construction costs were incurred, funds were released from the trustee bank to the borrower. During SFY 2010, the program changed how direct loans are funded. Instead of depositing 100 percent of the loan proceeds in a trustee bank at the time of closing, the loan is funded incrementally. Similar to a line of credit, funds are requested by the loan recipient as construction costs are incurred.

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

**C. Grants**

Beginning with the awarded capitalization grant during SFY 2010, the terms and conditions of the capitalization grant requires a percentage of assistance provided be in the form of additional loan subsidies, such as principal forgiveness, negative interest loans, or grants. Missouri chooses to provide the required additional subsidization through grants. Projects receiving this additional subsidization during FFY 2024 are funded through a combination of loan and grant with a maximum affordability grant of \$2,000,000 per applicant.

The following table lists the ranges at which additional subsidization is required:

<b>Federal Fiscal Year</b>	<b>Clean Water Capitalization Grant</b>	<b>Fiscal Year Awarded</b>	<b>Percentage</b>	<b>Planned Amount</b>	<b>Actual Amount Awarded</b>
2010	CS290001-15	2011	Not < than 14.98%	\$10,608,161	\$10,608,161

**Basis of Accounting**

The financial statements include enterprise funds and a fiduciary fund. The loan and administration fee funds are presented as enterprise funds and the custodial fund is presented as a fiduciary fund. All funds are maintained on the accrual basis. The enterprise funds are accounted for using the flow of economic resources measurement focus. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time the

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

liabilities are incurred. All assets, deferred outflows of resources, deferred inflows of resources, and liabilities associated with the operations of the loan and administration fee funds are included on the statement of net position. The assets and liabilities of the custodial fund are included on the statement of fiduciary net position. Fiscal year end accruals include expenditures the program was cognizant of through November 7, 2024.

The CWSRF program reports the following major funds:

*Loan Fund.* The loan fund provides financial assistance to municipalities, counties, political subdivisions, and instrumentalities of the state, and in some cases individuals, small business owners, and others in the private sector. Funding is generated from federal capitalization grants, proceeds of revenue bonds issued to provide required state matching monies, proceeds of revenue bonds issued for the leveraged program, and recycled monies.

*Administration Fee Fund.* This fund accounts for the administration fees received on loans and the use of those fees to pay salaries and associated expenses of program personnel devoting time to the administration of the program. This fund is also available for eligible water quality purposes as defined in the Intended Use Plan (IUP).

In addition, the program reports the following fund type:

*Custodial Fund.* This fund accounts for monies held on behalf of municipalities, counties, political subdivisions, and instrumentalities of the state. This includes the funds generated by the sale of bonds, which are deposited with a trustee bank in the applicant's name and are used for SRF eligible activities, their unspent loan funds, debt service reserve funds, as well as the rebate funds held for arbitrage payments.

**Cash, Cash Equivalents, and Investments**

**A. Enterprise Funds**

All monies in the state funds (Funds 0568, 0602, and 0649) are required to be deposited with the Missouri State Treasurer's Office, which is responsible for maintaining these deposits in accordance with state law. The program considers all such deposits to be cash. Investment interest earnings on these deposits are received by the program periodically throughout the month. According to state law, the treasurer is responsible for maintaining the cash balances and investing excess cash of the program, as further discussed in Note 2. Consequently, management of the program does not have any control over the investment of the excess cash. The statement of cash flows considers all funds deposited with the treasurer to be cash or cash equivalents, regardless of actual maturities of the underlying investments.

Monies of the Enterprise Funds that are held at the trustee bank in the master trust bond expense fund and the main bond debt service funds are invested in money market mutual funds by the trustee bank and are considered to be cash or cash equivalents. This does not include monies held

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Continued**

at trustee banks on behalf of the loan participants. Those monies are accounted for under the Custodial Fund.

**B. Custodial Fund**

The Custodial Fund accounts for the monies held at trustee banks on behalf of the loan participants. This includes the funds generated by the sale of bonds that are deposited with a trustee bank in the applicant's name and are used for SRF eligible activities, their unspent loan funds, debt service reserve funds, as well as the rebate funds held for arbitrage payments. The program considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

**Operating Revenues and Expenses**

Revenues and expenses as a result of providing grants and loans to participants are considered operating revenues and expenses. Operating revenues include interest earned on loans and administration fee revenue. Operating expenses include grant payments and accruals, salaries, benefits, depreciation, and other administrative expenses. The non-operating revenues and expenses of the CWSRF program are the EPA capitalization grant revenues, investment income, contributions from the State of Missouri and bond related expenses.

Administrative expenses to manage and operate the CWSRF program and other water quality purposes include staff salaries and benefits of \$4,975,334.

**Administration Fees**

The program charges an administration fee to borrowers to fund administrative costs of operating the program and other water quality purposes. During the year ending September 30, 2024, \$5,054,724 was collected for administration fees from borrowers, \$930,408 of investment interest was received, and \$4,181,502 was paid for administrative expenses from the administration fee fund. The cash balance of the administration fee fund was \$28,761,081 as of September 30, 2024.

**Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Missouri State Employees' Retirement System (MOSERS) and additions to or deductions from MOSERS' fiduciary net position have been determined on the same basis as they are reported by MOSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

**Bonds Payable**

Bonds issued are payable from borrower loan repayments. Interest expense is reported on the accrual basis. Any premium or cost of issuing the bonds is reported on the program's financial statements.

Borrowers make monthly payments to debt service repayment accounts, which also earn interest that further subsidizes the interest rates. On bond payment dates, transfers are made from the repayment accounts to the debt service funds to make the semi-annual interest payments and annual bond principal payments. Interest earnings on the construction loan accounts and reserve accounts are also transferred to the debt service funds on the bond payment dates. These interest earnings reduce the amount that is needed from the repayment accounts.

Any loan repayments in excess of semi-annual bond principal and interest amounts flow to the master trust unallocated fund, and, if there are no defaults, are transferred to the Master Trust Interest Accumulation Fund or the Water and Wastewater Loan Revolving Fund to be used to make new loans.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The program has three items that qualify for reporting in this category. Those are the deferred charge on refunding and the deferred outflows for pension and OPEB reported in the statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The program has two items that qualify for reporting in this category, which are deferred inflows for pension and OPEB.

**Pending Governmental Accounting Standards Board Statements**

GASB Statement No. 100

GASB Statement No. 100, *Accounting Changes and Error Correction – An Amendment of GASB Statement No. 62*, was issued June 2022. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for fiscal years beginning after June 15, 2023. Earlier application is encouraged.

GASB Statement No. 101

GASB Statement No. 101, *Compensated Absences*, was issued June 2022. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023. Earlier application is encouraged.

**Prior Period Adjustment**

During FFY 2024, the program reevaluated its estimation for Pension and OPEB deferred outflows of resources, deferred inflows of resources, and liabilities. This reevaluation caused a prior period adjustment by \$1,384,536 to increase net position in the administration fee fund and increase net position by \$83 in the loan fund.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Note 2: Cash, Cash Equivalents, and Investments**

**State Funds**

All cash in the state funds (Funds 0568, 0602, and 0649) is required to be deposited with the State Treasurer, who is responsible for maintaining and investing the pooled cash balances in accordance with state laws. The treasurer is required to maintain a mix of investments in order to allow funds to be withdrawn at any time to meet normal operating needs. The program's share of the investment income from the local government investment pool is based on the average daily balance for the period and is credited to the program periodically throughout the month. The treasurer has its own policies for custodial credit risk, interest rate risk, credit risk, concentration of credit risk, and foreign currency risk. Details of the investments and risks can be obtained from the State Treasurer's Office.

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

All cash and investments in the local investment pool are stated at cost, which approximates fair market value. The investments in the local government investment pool are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

**Trustee Bank Funds**

All cash and investments held by trustee banks are invested in accordance with the trustee investment agreement and the bond indentures. Allowable investments include:

- Federal securities
- Direct and general obligations of the State which are pledged by the full faith and credit of the State and are rated in either of the two highest rating categories
- Deposits at banks, trust companies, or savings and loan associations which are fully insured by the Federal Deposit Insurance Corporation (FDIC)
- Federal funds, unsecured certificates of deposit, time deposits, and bankers acceptances (having maturities of not more than 365 days) of any bank and which are rated in the highest short-term rating category
- Unsecured promissory notes of any bank, trust company, national banking association, or bank holding company equal in quality to such institution's outstanding unsecured long-term debt that is rated in the highest rating category
- Tax exempt permitted investments
- Any other investment agreement with a provider which is rated, or whose unsecured, long-term obligations are rated at least "Aa2" or equivalent, or with a provider whose obligations are guaranteed by a guarantor which is rated, or whose unsecured, long-term obligations are rated at least "Aa2" or equivalent
- Commercial paper issued by domestic corporations rated in the second highest short-term rating category
- Shares in money market mutual funds rated in the highest applicable rating category

*Custodial credit risk.* This is the risk that, in the event of the failure of the counterparty, the program will not be able to recover the value of its deposits or investments. There are no cash and cash equivalents held by the trustee banks that were exposed to custodial credit risk. Also, no cash and cash equivalents were invested in money market mutual funds.

*Interest rate risk.* Interest rate risk is the risk that changes in interest rates may adversely affect the investment's fair value. The program does not have a policy to address interest rate risk.

*Credit risk.* The trustee banks are responsible for monitoring credit risk as it relates to the types of investments that can be made in accordance with the trustee investment agreement. The program has no investment policy that further limits its investment choices.

*Concentration of credit risk.* The program places no limit on the amount that may be invested with any one issuer. There were no investments held by a provider during the reporting period as of September 30, 2024.

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

*Fair Value Measurement.* The CWSRF program categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

As of September 30, 2024, the CWSRF program's government custodial and state and local government fixed income securities of \$907,467 were valued using pricing of similar assets in markets that were not active (Level 2 input).

As of September 30, 2024, the loan fund had the following investments:

Investment Type	Fair Value	Investment Maturities		
		<1 Year	1-5 Years	>5 Years
Gov't Agency & State and Local	\$ 907,467	\$ -	\$907,467	\$ -
Total	\$ 907,467	\$ -	\$ 907,467	\$ -

### Note 3: Loans Receivable

Loans receivable consist of: leveraged loans, reserve loans, direct loans and nonpoint source loans. Leveraged loans are funded by the sale of revenue bonds, the proceeds of which are deposited to a construction loan fund. Borrowers are loaned funds from the construction loan fund to pay for construction costs incurred. The terms of the loans mirror the terms of the bonds in order to provide the funds to pay bond interest and principal according to the terms of the bonds. In conjunction with the leveraged loan that funds construction, a reserve loan is made to provide an interest subsidy to the borrower and to provide security for bond principal and interest. With direct loans, there is no bond sale directly related to the loan. The loans are funded directly from the federal capitalization grant or recycled monies. The following details the types of loans as of September 30, 2024:

Loan Type	Loan Amount Authorized	Outstanding Balance
Leveraged	\$1,730,092,661	\$ 91,111,000
Reserve	1,164,691,027	62,557,100
Direct	2,834,510,565	1,212,213,824
Nonpoint Source	20,342,890	293,100
Total	<u>\$5,749,637,143</u>	1,366,175,024
Less Current Maturities		130,071,686
Loans Receivable, Net of Current Portion		<u>\$1,236,103,338</u>

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

Loans receivable activity during the period ended September 30, 2024, is summarized as follows:

<b>Loan Type</b>	<b>Sept. 30, 2023</b>			<b>Sept. 30, 2024</b>
	<b>Balance</b>	<b>Disbursements</b>	<b>Repayments</b>	<b>Balance</b>
Leveraged	\$ 135,048,000	\$ -	\$ 43,937,000	\$ 91,111,000
Reserve	92,744,705	-	30,187,605	62,557,100
Direct	993,320,047	281,051,424	62,157,647	1,212,213,824
Nonpoint Source	373,214	-	80,114	293,100
<b>Total</b>	<b>\$1,221,485,966</b>	<b>\$281,051,424</b>	<b>\$136,362,366</b>	<b>\$1,366,175,024</b>

**Loan Maturities**

The scheduled principal payments in subsequent years are as follows:

<b>Year Ending Sept. 30</b>	<b>Leveraged</b>	<b>Reserve</b>	<b>Direct</b>	<b>Nonpoint Source</b>	<b>Total</b>
2025	\$ 33,427,000	\$ 22,795,670	\$ 73,608,614	\$ 81,702	\$ 129,912,986

Wentzville	40,061,000	11,763,000	2,422,672
<b>Total</b>	<b>\$3,779,488,930</b>	<b>\$1,180,879,845</b>	<b>\$48,476,444</b>

**Note 4: Bonds Payable**

The Missouri CWSRF program issues revenue bonds as well as using federal capitalization grants and state matching funds to finance qualified projects. Bonds payable and loans receivable are recorded in the loan fund. Cash and project costs payable are recorded in the custodial fund. Interest earned on the construction loan fund and the reserve fund subsidizes the interest on the

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

borrower's loan. As borrowers repay the loans, the principal and interest serve as the source of funds to pay bond principal and interest.

The EIARA issued state match revenue bond series 2015A in SFY 2015 and state match revenue bond series 2018A in SFY 2018. Proceeds of these bond sales went to the recycled funds to provide additional funding for new loans. The principal and interest repayments on the program's direct loans have been pledged to make the principal and interest repayments on the bonds.

In SFY 2021, EIARA issued Taxable Water Pollution Control and Drinking Water Refunding Revenue Bonds Series 2020B, and applied portions of the proceeds to refund certain outstanding bonds of the EIARA, including all of the outstanding prior bonds.

As of September 30, 2024, five separate revenue bond and one taxable state match bond series remain outstanding which have a total principal balance of \$130,840,000 and \$5,042,000 respectively. The individual series, outstanding balances, and principal due include:

<b>Series</b>	<b>Amount Issued</b>	<b>Outstanding Balance</b>	<b>Current Portion</b>
Revenue Bond Series 2013A interest of 2.0% to 5.0% due semi-annually, principal due annually to January 2027. (Refunding Bonds)	\$ 65,905,000	\$ 13,275,000	\$ 6,410,000
Revenue Bond Series 2015A Interest of 1.5% to 5.0% due semi-annually, principal due semi-annually to January 2036. (State Match only)	23,960,000	6,525,000	1,325,000
Revenue Bond Series 2015B interest of 3.5% to 5.0% due semi-annually, principal due annually to July 2030 (Refunding Bonds)	116,540,000	81,465,000	16,445,000
2015B Leveraged Portion	113,865,000	81,115,000	16,290,000
2015B State Match Portion	2,675,000	350,000	155,000
Revenue Bond Series 2018A Interest of 3.5% to 5.0% due semi-annually, principal due semi-annually to July 2038. (State Match only)	21,590,000	11,605,000	1,445,000
Revenue Bond Series 2020B Interest of 0.21% to 1.90% due semi-annually, principal due semi-annually to July 2027. (Refunding Bonds)	86,280,000	17,970,000	13,050,000
2020B Leveraged Portion	71,235,000	14,045,000	11,395,000
2020B State Match Portion	15,045,000	3,925,000	1,655,000
Taxable Bond Series 2023A Interest of 5.82% due semi-annually, principal due semi-annually to July 2025. (State Match only)	10,000,000	5,042,000	5,042,000
<b>Total</b>	<b>\$324,275,000</b>	<b>\$135,882,000</b>	<b>\$43,717,000</b>

<b>Series</b>	<b>Amount Issued</b>	<b>Outstanding Balance</b>	<b>Current Portion</b>
Leveraged Bonds	\$251,005,000	\$108,435,000	\$34,095,000
State Match Bonds	73,270,000	27,447,000	9,622,000
Premium on Bonds	-	4,638,690	1,757,881
<b>Total Revenue &amp; GO Bonds</b>	<b>\$324,275,000</b>	<b>\$140,520,690</b>	<b>\$45,474,881</b>

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Continued**

Bond activity during the year ended September 30, 2024, is summarized as follows:

<b>Series</b>	<b>Sept. 30, 2023</b>			<b>Sept. 30, 2024</b>
	<b>Balance</b>	<b>Repayments</b>	<b>New Issues</b>	<b>Balance</b>
Leveraged Bonds	\$152,770,000	\$(44,335,000)	\$ -	\$108,435,000
State Match Bonds	33,341,900	(15,894,900)	10,000,000	27,447,000
Premium on Bonds	6,942,354	(1,806,836)	-	4,638,690
Total Revenue & GO Bonds	<u>\$193,054,254</u>	<u>\$(62,036,736)</u>	<u>\$ 10,000,000</u>	<u>\$140,520,690</u>

The required annual payments, not including premium and deferred amounts, for all general obligation and revenue bonds for subsequent fiscal years are as follows:

**Leveraged Bonds**

<b>Year Ending September 30</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>
2025	\$ 34,095,000	\$ 4,000,492	\$ 38,095,492
2026	28,450,000	2,711,981	31,161,981
2027	16,395,000	1,439,781	17,834,781
2028	12,295,000	867,913	13,162,913
2029	10,300,000	473,025	10,773,025
2030-2034	6,900,000	167,125	7,067,125
Leveraged Bonds Total	<u>\$108,435,000</u>	<u>\$ 9,660,317</u>	<u>\$118,095,317</u>

**Match Bonds**

<b>Year Ending September 30</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>
2025	\$ 9,622,000	\$ 1,089,856	\$ 10,711,856
2026	3,915,000	710,387	4,625,387
2027	3,225,000	562,452	3,787,452
2028	2,480,000	433,021	2,913,021
2029	1,915,000	328,850	2,243,850
2030-2034	5,185,000	724,838	5,909,838
2035-2039	1,105,000	78,913	1,183,913
Match Bonds Total	<u>\$27,447,000</u>	<u>\$ 3,928,317</u>	<u>\$31,375,317</u>

**Advance Refunding**

Three separate revenue refunding bond series (Series 2013A, 2015B, and 2020B) totaling \$268,725,000 were issued to provide resources to purchase U.S. Government State and Local Government Series securities that were placed in irrevocable trusts for the purpose of generating resources for future debt service payments totaling \$274,900,000 of revenue bonds. As a result,

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

the refunded bonds are considered to be defeased, and the liability has been removed from the statement of net position. As of September 30, 2024, the amount of refunded bonds that had yet to be called totaled \$945,000.

**Note 5: Arbitrage Rebate**

In accordance with Internal Revenue Code Section 148(f) relating to arbitrage restrictions on tax-exempt bonds, the custodial fund recorded \$48,529 in arbitrage rebate payable.

**Note 6: Pension Plan**

**Plan Description**

Benefit eligible employees of the Department are provided with pensions through Missouri State Employees' Plan (MSEP) - a cost-sharing multiple-employer defined benefit pension plan administered by Missouri Employees' Retirement System (MOSERS). The plans are referred to as MOSERS in the notes. Chapter 104.320 of the Revised Statutes of Missouri grants the authority to establish a defined benefit plan for eligible state and other related agency employees. MOSERS issues an Annual Comprehensive Financial Report (ACFR), a publicly available financial report that can be obtained at [www.mosers.org](http://www.mosers.org).

**Benefits Provided**

MOSERS provides retirement, disability, and survivor benefits to eligible employees. The base retirement benefits are calculated by multiplying the employee's final average pay by a specific factor multiplied by the years of credited service. The factor is based on the specific plan in which the employee participates, which is based on the employee's hire date. Information on the two plans administered by MOSERS (MSEP (closed plan) and MSEP 2000 (MSEP 2011 is a tier of MSEP 2000)) and how eligibility and the benefit amount is determined for each plan may be found in the Notes to the Financial Statements of MOSERS' ACFR at [www.mosers.org](http://www.mosers.org).

**Contributions**

Per Chapter 104.436 of the Revised Statutes of Missouri, contribution requirements of the active employees and the participating employers are established and may be amended by the MOSERS Board. Employees in the MSEP 2011 Plan are required to contribute 4.0 percent of their annual pay. The CWSRF program's required contribution rate for the year ended June 30, 2024, was 27.26 percent of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Contributions to the pension plan from the CWSRF program were \$541,188 for the fiscal year ended September 30, 2024.

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Continued**

**Net Pension Liability**

On September 30, 2024, a liability was reported of \$5,920,608 for the CWSRF program's proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was offset by the fiduciary net position obtained from MOSERS ACFR as of June 30, 2023 to determine the net pension liability.

The CWSRF program's proportion of the net pension liability was based on the Department's actual share of contributions to the pension plan relative to the actual contributions of all participating employers for MOSERS plan year ended June 30, 2023. At the June 30, 2023, measurement date, the CWSRF program's proportion was .0776 percent, a decrease from its proportion measured using 0.0998 percent as of the June 30, 2022 measurement date.

There were no other changes in benefit terms during the MOSERS plan year ended June 30, 2023 that affected the measurement of total pension liability. At the Board's September 21, 2023 meeting, it was voted to increase the minimum employer contribution rate from 16.97% of pay to 28.75% of pay in fiscal year 2025, 30.25% in fiscal year 2026, and 32.00% of pay thereafter.

**Actuarial Assumptions**

The total pension liability in the June 30, 2023, actuarial valuation, which is also the date of measurement for GASB 68 purposes, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary Increases	2.75% to 10.00% including inflation
Wage Inflation	2.25%
Investment Rate of Return	6.95%, compounded annually, net after investment expenses and including inflation
Actuarial Cost Method	Entry age normal

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study covering the five-year period ended June 30, 2020 completed in 2021.

**Mortality**

Mortality rates for post-retirement mortality are based on the Pub-2010 General Members Below Median Healthy Retiree mortality table, scaled back by 104 percent, set back two years for males and set forward one year for females. The pre-retirement mortality rates are based on the Pub-2010 General Members Below Median Employee mortality table, set back two years for males and set forward one year for females. Post-retirement mortality rates for beneficiaries

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Continued**

were based on the Pub-2010 General Members Below Median Contingent Survivor mortality table, set back two years for males and set forward one year for females. Mortality was projected generationally for 2010 to 2020 using Scale MP-2020 and 75 percent of Scale MP-2020 for years after 2020. Disabled mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table, without mortality projection.

**Long-Term Investment Rate of Return**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates rates of expected future rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage and by adjusting for expected inflation, volatility, and correlations. Best estimates of real rates of return for each major asset class included in MOSERS target asset allocation as of June 30, 2023, are summarized in the following table:

<b>Asset Class</b>	<b>Policy Allocation</b>	<b>Long-term Expected Nominal Return*</b>	<b>Weighted Average Long-term Expected Nominal Return</b>
Global public equities	30.0%	7.7%	2.3%
Global private equities	15.0%	9.3%	1.4%
Long treasuries	25.0%	3.5%	0.9%
Core bonds	10.0%	3.1%	0.3%
Commodities	5.0%	5.5%	0.3%
TIPS	25.0%	2.7%	0.7%
Private real assets	5.0%	7.1%	0.3%
Public real assets	5.0%	7.7%	0.4%
Hedge funds	5.0%	4.8%	0.2%
Alternative beta	10.0%	5.3%	0.5%
Private credit	5.0%	9.5%	0.5%
Cash and cash equivalents**	(40.0)%	-	-
<b>Total</b>	<b>100.0%</b>		<b>7.8%</b>

\*Long-term expected arithmetic returns of the asset classes at the time of the asset allocation study for each portfolio.

\*\*Cash and cash equivalents policy allocation amounts are negative due to use of leverage.

**Discount Rate**

The discount rate used to measure the total pension liability was 6.95 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made using the actuarially determined rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments, net of investment expense, of 6.95 percent, was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the CWSRF Program's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the CWSRF program's proportionate share of the net pension liability calculated using the discount rate of 6.95 percent, as well as what the CWSRF program's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.95 percent) or 1 percentage point higher (7.95 percent) than the current rate:

	<b>1% Decrease (5.95%)</b>	<b>Current Discount Rate (6.95%)</b>	<b>1% Increase (7.95%)</b>
CWSRF program's proportionate share of the net pension liability	\$7,380,330	\$5,920,608	\$4,701,227

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in the separately issued MOSERS annual comprehensive financial report, which may be requested from Missouri State Employees' Retirement System, P.O. Box 209, Jefferson City, MO 65102-0209 or viewed on [www.mosers.org](http://www.mosers.org).

**Pension Expense**

For the year ended September 30, 2024, the CWSRF program recognized pension expense of \$645,335.

**Deferred Outflows of Resources and Deferred Inflows of Resources**

As of September 30, 2024, the CWSRF program reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 314,423	\$ -
Changes of assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	552,156	-
Changes in proportion and differences between program contributions and proportionate share of contributions	36,457	(8,259)
Program contributions subsequent to the measurement date	541,189	-
<b>Total</b>	<b>\$1,444,225</b>	<b>\$(8,259)</b>

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Continued**

CWSRF program reported \$541,189 as deferred outflows of resources related to pensions resulting from contributions made subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the year ended September 30, 2025, on the CWSRF program's financial statements. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in the CWSRF program's fiscal year following MOSERS' fiscal year as follows:

Plan year ending September 30:

2025	\$ 326,417
2026	170,479
2027	327,518
2028	70,363
Total	<u>\$ 894,777</u>

**Payables to the Pension Plan**

As of September 30, 2024, the CWSRF program had payables of \$80,925 to MOSERS because of benefits accrued for the September 15, 2024 payroll that were not paid until after this reporting period, but earned during the reporting period.

**Note 7: Other Post-Employment Benefits Plan (OPEB)**

**Plan Description**

The Missouri Consolidated Health Care Plan (MCHCP) operates a cost sharing multiple employer, defined benefit OPEB plan, the State Retiree Welfare Benefit Trust (SRWBT or the Plan). Employees may participate at retirement if eligible to receive a monthly retirement benefit from either the MOSERS or another retirement system whose members are grandfathered for coverage under the Plan by law. The terms and conditions governing postemployment benefits are vested with the MCHCP Board of Trustees within the authority granted under Chapter 103 of the Revised Statutes of Missouri (2000) as amended ("RSMo") 103.003 through 103.178. MCHCP is considered a component unit of the State of Missouri reporting entity and is included in the state's financial report. The Plan's financial statements are available on MCHCP's website at [www.mchcp.org/aboutUs/annualReport.asp](http://www.mchcp.org/aboutUs/annualReport.asp). The SRWBT does not issue a standalone financial report.

**Benefits Provided**

The SRWBT was established and organized on June 27, 2008, pursuant to the Revised Statutes of Missouri (2000) as amended ("RSMo") 103.003 through 103.178 to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the state and their dependents who meet eligibility requirements except for those retired members covered by

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

other OPEB plans of the state. MCHCP's three medical plans offer the same basic coverage, such as preventative care, freedom to choose care from a nationwide network of primary care providers, specialists, pharmacies and hospitals, usually at a lower negotiated group discount and the same covered benefits for both medical and pharmacy. Benefits are the same in all three plans. Other aspects differ such as premium, deductible and out of pocket costs. Retiree benefits are the same as for active employees. At the participant census date of July 1, 2023, membership information for the entire SRWBT consisted of the following:

Active employees – 36,778  
Participants and Spouses in Payment Status – 22,097  
Participants with a deferred benefit – 77  
Disabled participants - 58

Note: Membership information for CWSRF program employees is not available.

**Contributions**

Contributions are established and may be amended by the MCHCP Board of Trustees with the authority granted under Chapter 103 of the Revised Statutes of Missouri (2000) as amended ("RSMo") 103.003 through 103.178. For the fiscal year ended June 30, 2023, employers were required to contribute, on average, 4.05 percent of active employee covered payroll to fund current fiscal year cost of retiree plan benefits.

Contributions to the OPEB plan from the CWSRF program were \$317 for the fiscal year ended September 30, 2024.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At September 30, 2024, a liability was reported of \$6,173 for the CWSRF program's proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

The CWSRF program's proportion of the net OPEB liability was based on the Department's share of covered payroll in the OPEB plan relative to the covered-employee payroll of the State of Missouri. At June 30, 2023, the CWSRF program's proportion was 0.0004 percent.

For the year ended September 30, 2024, the CWSRF program recognized OPEB expense of \$236 and reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

**Missouri Department of Natural Resources**  
**Clean Water State Revolving Fund**  
**Notes to the Financial Statements – Continued**

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 362	\$ (57)
Change of assumptions	-	(2,364)
Net difference between projected and actual earnings on OPEB plan investments	49	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	3	(12)
Employer contributions subsequent to the measurement date	317	-
Total	<u>\$ 731</u>	<u>\$ (2,433)</u>

There was \$317 reported as deferred outflows of resources related to OPEB resulting from CWSRF program contributions subsequent to the measurement date and will be recognized as a reduction of the net OPEB liability in the year ended September 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in future years' OPEB expense as follows:

Year ending June 30:

2025	\$ (369)
2026	(374)
2027	(361)
2028	(356)
2029	(326)
Thereafter	(233)
Total	<u>\$ (2,019)</u>

### **Actuarial Assumptions**

Actuarial valuations for the SRWBT involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation to determine the SRWBT's total OPEB liability is required to be performed at least every two years. The SRWBT valuation is performed annually, but should the valuation not be performed as of the fiscal year end, the total OPEB liability is required to be rolled forward from the actuarial valuation date to the SRWBT plan's fiscal year end. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The collective total OPEB liability for the June 30, 2023 measurement date was determined by an actuarial valuation as of July 1,

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Continued**

2023. This actuarial valuation used the following actuarial assumptions:

<b>Actuarial Assumptions</b>	
Inflation rate	3.00%
Discount rate	5.50%
Projected payroll growth rate	4.00%
Actuarial cost method	Entry age normal, level percentage of payroll
Asset valuation method	Fair value

Health care cost trend rate (medical & prescription drugs combined): Non-Medicare is 6.68% for fiscal year 2024, 6.59% for fiscal year 2025, 6.29% for fiscal year 2026, 5.99% for fiscal year 2027, 5.69% for fiscal year 2028, 5.38% for fiscal year 2029, 5.16% for fiscal year 2030, 5.02% for fiscal year 2031, 4.88% for fiscal year 2032, 4.73% for fiscal year 2033, 4.58% for fiscal year 2034, and 4.50% for fiscal year 2035 and after.

Medicare is 11.79% for fiscal year 2024, 12.54% for fiscal year 2025, 11.38% for fiscal year 2026, 9.06% for fiscal year 2027, 7.19% for fiscal year 2028, 6.75% for fiscal year 2029, 6.33% for fiscal year 2030, 5.93% for fiscal year 2031, 5.52% for fiscal year 2032, 5.11% for fiscal year 2033, 4.70% for fiscal year 2034, and 4.50% for fiscal year 2035 and after.

Mortality and Annuitant: PRI-2012 for Employees Amount – weighted Mortality Table projected generationally using MP-2021. The last experience study was conducted in July 2020. Termination rates, retirement rates, participation and dependent coverage assumptions were updated as a result of the experience study. Per capita claims costs, administrative expenses and retiree's contributions were updated based on analysis of 2023 rates.

The discount rate was 5.50 percent, unchanged from last year. Per capita claims costs, administrative expenses and retiree contributions were updated to reflect current experience. Trend assumptions were revised to reflect future expectations.

### **Long-Term Expected Rate of Return**

The target allocation and best estimates of arithmetic real rate of returns for each major asset class are listed below:

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Continued**

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Expected Real Return</b>
Domestic Large Cap Equity	17.0%	5.9%
Domestic Mid Cap Equity	4.0%	5.9%
Domestic Small Cap Equity	6.0%	5.6%
Global Equity	5.0%	9.4%
Domestic Fixed Income	67.0%	4.2%
Cash Equivalents	1.0%	3.5%

**Discount Rate**

A discount rate used to measure the total OPEB liability was 5.50 percent as of June 30, 2023. The OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investment was applied to all periods of projected benefit payments to determine the total OPEB liability.

**Sensitivity of the CWSRF Program's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate**

As required by GASB Statement No. 75, the following table presents the CWSRF program's proportionate share of the net OPEB liability, calculated using a discount rate of 5.50 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percent lower or one percent higher:

	<b>1% Decrease in Discount Rate (4.50%)</b>	<b>Current Discount Rate (5.50%)</b>	<b>1% Increase in Discount Rate (6.50%)</b>
Program's proportionate share of the Net OPEB Liability	\$7,241	\$6,173	\$5,311

**Sensitivity of the CWSRF Program's Proportionate Share of the Net OPEB Liability to Healthcare Cost Trend Rate**

The following presents the CWSRF program's proportionate share of the net OPEB liability calculated using assumed trend rates, as well as what the CWSRF program's proportionate share of net OPEB liability would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher:

	<b>1% Decrease in Trend Rates</b>	<b>Current Trend Rates</b>	<b>1% Increase in Trend Rates</b>
Program's proportionate share of the Net OPEB Liability	\$5,268	\$6,173	\$7,307

**Missouri Department of Natural Resources  
Clean Water State Revolving Fund  
Notes to the Financial Statements – Continued**

**Note 8: Net Position**

The net position of the program is all restricted. The program's enabling legislation and related regulations require that all money in the fund may be used only for purposes of the program. The program is capitalized by grants from the EPA, authorized by Title VI of the Clean Water Act, and matching funds from the State of Missouri. As of September 30, 2024, the EPA has awarded capitalization grants totaling \$1,544,503,631 of which \$1,531,084,713 has been drawn. The total award amount includes \$100,000 in-kind amounts on each of the CS290001-11, CS290001-13, and CS290001-16 grants to pay for independent audits. CS290001-18 includes an in-kind amount of \$70,000 to pay for independent audits. CS290001-20 includes an in-kind amount of \$42,000 to pay for independent audits. These in-kind amounts are not available to be drawn. The following table summarizes the capitalization grants awarded, amounts drawn, and balances available:

	<b>\$1,544,503,631</b>	<b>\$1,429,986,287</b>	<b>\$101,098,426</b>	<b>\$1,531,084,713</b>	<b>\$13,006,918</b>

As of September 30, 2024, the state match provided for the capitalization grants was as follows:

	<b>September 30, 2023</b>	<b>2024 Match</b>	<b>September 30, 2024</b>
State Appropriations	\$ 98,136,140	\$ -	\$ 98,136,140
State Match GO Bonds	15,427,980	-	15,427,980
State Match Revenue Bonds	135,981,162	9,937,300	145,918,462
State Match Administration	11,783,783	-	11,783,783
Total State Match	<u>\$261,329,065</u>	<u>\$9,937,300</u>	<u>\$271,266,365</u>

The state match bonds are being repaid with CWSRF program interest earnings and are not contributions to fund equity. The total state contribution to fund equity is \$112,064,216. This amount consists of the \$98,136,140 of state appropriations and \$11,783,783 of state match paid from the administration fee fund as listed above, plus an additional \$2,144,293 that the state of Missouri contributed to pay part of the debt service on the state match general obligation bonds.

### **Note 9: Contingencies**

The program is exposed to various risks of loss related to torts, theft of assets, errors or omissions, injuries to state employees while performing program business, or acts of God. The program maintains insurance through the State of Missouri for all risks of loss, which is included in the indirect costs allocated to the program. There have not been any claims against the program since its inception in 1989.
